Please share with us any ideas you have that can help improve the City of Austin's Off-Leash Areas.

10/9/2009	5128652	I think Austin needs more OLA's to take the pressure of the current OLA's. I also think that the new OLA's should be placed in areas that don't currently have OLA's so there is an even distribution throughout the city and so they are easy to get to for all neighborhoods. For example there are no OLA's in South Austin, except for Onion Creek in Southeast Austin.
11/1/2009	5752690	In general, I feel that the OLAs need more signage and trash cans.
11/3/2009	5794838	Signs warning people they are likely to encounter dogs off-leash and advising them to KEEP OUT if they are afraid of dogs. Signs warning people they are likely to encounter horses & trail riders and advising them to KEEP OUT if they are afraid of horses.

11/9/2009	5938278	Remind people to pay attention to their dogs at ALL times.
11/19/2009	6229090	The City of Austin needs to improve its public outreach efforts to inform park patrons of these off-leash areas. In addition, the City of Austin should be looking ahead to developing and/or incorporating future park areas to handle the influx of dog owners and active city dwellers.
